Another robust and gorgeous CATCH daughter out of our bred and raised over 80"TTT young TAVIA. This heifer runs to us when we go to visit just to tell us all about it...she is so cute with the calmest disposition, tall with nice conformation, excellent horn direction, has the cutest markings, and super great genetics. Her maternal great grandmother is an over 95"TTT that goes back to TARI GRAVES FM49 and paternal sister to the over 100"TTT

**TTT:** 60.2500 on 06/01/2024
